

Adam Brunette

Web Developer

Janesville, WI 53546

wisco2jz@gmail.com

+1 608 371 3780

Professional Summary

Full Stack Web Developer with a focus on Front-End Development, translating designs into responsive, user-friendly websites using JavaScript, HTML, CSS, PHP, and C#. Proficient in MySQL and MSSQL, with additional experience using XML, JSON, NITF, and APIs for data integration. Worked extensively with BLOX's proprietary templating and scripting languages. Strong background in client communication, support, and training, including direct experience managing client support workflows.

Authorized to work in the US for any employer

Work Experience

Software Developer

Blox Digital-Moline, IL

February 2023 to June 2025

Promoted to the Data Applications team after one year as a Developer on the Customer Support team. Contributed to developing and customizing data parsers for importing client data from legacy systems using APIs, XML, NITF, JSON, and MySQL. Also supported data export in NITF and other client-specified formats. Worked primarily with PHP and BLOX's proprietary language to ensure seamless integration and data compatibility.

Front End Developer - Customer Success

TownNews - Blox Digital-Remote

February 2022 to February 2023

Hired as a Front-End Developer to strengthen the department's technical capabilities and support clients requiring an Account Manager with strong web development expertise. Worked with standard front-end technologies including HTML, CSS, JavaScript, and common frameworks, as well as a proprietary PHP-based templating language.

Dot Net Developer

USA Health-Mobile, AL

July 2021 to February 2022

Contracted to complete a Craft CMS web application for a NICU, enabling nurses to update parents on their child's status during COVID-19 restrictions. Built features that allowed secure, real-time information sharing between staff and families. Utilized Craft CMS, PHP, Twig, AJAX, JavaScript, SCSS, HTML, and MySQL.

Front End Developer

Foremost Media-Janesville, WI

June 2017 to July 2021

Front-End Developer with hands-on experience in HTML, CSS, JavaScript, PHP, C#, and ASP.NET. Worked with a range of popular frameworks and content management systems including DNN, Evoq, WordPress, and NOPCommerce.

Web Designer/Developer

Lorianna's Sweetlife Bakery-Janesville, WI

April 2017 to May 2017

Hired on a project basis to design and develop a modern, functional website tailored to the client's needs.

Additional Information

I am a self-motivated and dependable developer with a strong ability to adapt to new challenges and evolving technologies. I stay current with modern design and development standards and thrive in both collaborative and independent work environments. I hold an Associate's degree in Web Software Development and bring over nine years of professional experience in Agency, Contract and Corporate Development roles. I understand what it takes to build and maintain successful, functional websites and am well-versed in a range of popular programming languages and frameworks. I'm confident I can bring value to any development team.
